

PLATFORM INVESTMENT

An app for 33+ locations.

A right-sized partnership for launch —
mobile app + admin Studio + booking integration.

Prepared for · The Ten Spot team

Scope · Mobile platform + The Studio (multi-location admin) — hosting, AI, releases, monitoring, on-call, OS-required maintenance

Excluded · One-time build (separate proposal). Booker / Mindbody integration scoped separately. Payment processing, gift card vendor — passthrough.

THE PHILOSOPHY

Right-sized for launch. Designed for a multi-location franchise.

Most app platforms are built for single-site brands. The Ten Spot is 33+ locations with franchise owners, technician schedules, and per-location pricing. Our recommendation respects that, with a Studio that supports corporate + franchise-owner views (RBAC) and a booking integration approach that syncs with your existing system rather than replacing it.

Predictable

A flat monthly fee for everything in the launch scope.

Multi-location

RBAC for corporate vs franchise-owner. Per-location pricing variation supported.

Honest

If something is included, we say so. Booking-system integration is its own project, scoped separately.

THE RECOMMENDATION

Growth tier + Studio add-on — \$4,250 / month — for Year 1.

MOBILE TIER

Growth

\$3,500 / mo

Both stores via React Native. Bilingual Claude AI (EN/FR). RevenueCat for memberships. Apple + Google sign-in. ASO quarterly. Two releases a month. Shared Slack with 4-hour response.

ADMIN PORTAL

The Studio

\$750 / mo

Multi-location dashboard, master scheduling, technician calendar, service catalog with per-location pricing, franchise admin (RBAC), Spotted-tier admin, concierge inbox.

FUTURE TIER

Enterprise

from \$8,000 / mo

SLA-grade Booker/Mindbody two-way sync. Franchise-owner B2B portal. Multi-state data residency. SSO + audit logging + RLS hardening. 24/7 SLA. Studio folds in.

The most complex Studio we've built.

MODULE	WHAT YOUR TEAM DOES WITH IT
Multi-location dashboard	Bookings, no-shows, technician utilisation, revenue per location. Corporate sees all 33; owner sees their location.
Master scheduling	Per-location technician calendar with skill matrix (who can do laser, who specializes in lash).
Service catalog editor	Master service definitions with per-franchise pricing variation (+/-15%).
Franchise admin (RBAC)	Corporate vs franchise-owner roles. Owners see their location only.
Spotted member admin	Tier purchase, gift cards, multi-location credit balance.
Concierge inbox	App chat escalations, sensitive flags, cross-location bookings, franchise-cross issues.
Prep + Aftercare content editor	Per-service prep + aftercare guides. Multilingual EN/FR.
Translation workflow	EN-first; Claude drafts FR; editors approve.
No-show + cancel-fee management	Per-location policy with corporate guidelines.
Analytics dashboards	App-booked %, no-show rate, cadence adherence, multi-location spread.

BOOKING-SYSTEM INTEGRATION

Your existing booking software stays. We sync, never replace.

Whether you're on Booker, Mindbody, or another system, the app and Studio sync with it via API. Phase 1 launches with one-way sync (read availability, write bookings). Phase 2 deepens to two-way sync (real-time tech updates) at SLA grade — the trigger for the Enterprise tier.

INTEGRATION SCOPE (SEPARATE PROJECT)

Booker / Mindbody / current-system integration is scoped as a separate engagement: typically 4–8 weeks, \$25K–\$40K depending on which system and how customised. Discovery sprint includes integration audit so the number is locked before you commit.

WHAT THIS LOOKS LIKE

At every stage of growth.

STAGE	MONTHLY ACTIVE USERS	MONTHLY PLATFORM FEE	PER ACTIVE USER
Pilot (5 locations)	3,000	\$4,250	\$1.42
Launch (all 33 locations)	15,000	\$4,250	\$0.28
Established	35,000	\$4,250	\$0.12
US expansion	60,000	\$4,250	\$0.07
National scale	120,000	\$4,250	\$0.04

Combined fee covers mobile platform + Studio at every stage. AI overage above 100K calls/month billed at cost +20%. Booker/Mindbody integration cost separately metered.

YEAR 2 — THE UPGRADE PATH

Faster than other clients — likely 12 months.

TRIGGER	WHAT ENTERPRISE UNLOCKS
Booker/Mindbody two-way sync at SLA-grade	Real-time tech updates with 1-hour SLA on integration uptime.
Franchise-owner B2B portal	SSO, audit logging, role-based access for 33+ owners.
Multi-state US data residency	Required as US expansion grows.
24/7 / 1h SLA	Dedicated lead engineer + PM, on-call rotation.
PCI compliance hardening	Gift card + membership payment volume.

WHAT WE LOCK IN YOUR YEAR 1 CONTRACT

The Enterprise upgrade fee is set in advance, with no penalty for moving up. Build credit prorated. We expect to land Enterprise around month 12 — design the Year 1 contract assuming that.

FAIR TERMS

30-day exit

Either side can end on 30 days' notice after the Year 1 term.

Your data, your accounts

Source code, customer data, AI logs, multi-location calendar all live in your cloud accounts.

AI overage cap

If AI usage spikes beyond 100,000 calls per month, anything above is billed at our cost +20%.

WHAT'S NOT INCLUDED

Passed through at cost or scoped separately.

- **App-store fees** — Apple's \$99/yr and Google's \$25 one-time, on your accounts.
- **Booker / Mindbody integration build** — separate engagement (\$25–40K).
- **Booker / Mindbody monthly costs** — your existing contracts, unchanged.
- **Payment processing** — Stripe, Square, or your existing PSP.
- **Gift card vendor** — passthrough at standard rates.
- **SMS reminders** — Twilio or equivalent at cost.
- **Phase 2 / Phase 3 build** — franchise B2B, demand-sensing, etc., scoped separately.
- **Marketing & ad spend** — entirely yours to direct.

THE OFFER

Growth + Studio · \$4,250 / month for Year 1. Booker/Mindbody integration separately scoped. Pre-negotiated 12-month Enterprise upgrade. AI overage at cost +20%. 30-day exit after Year 1.

Right-sized for the launch. Right path for the success scenario. Built so the platform stays in service of booking — across 33+ locations and growing.
