

PLATFORM INVESTMENT

An app that works as hard as your pieces.

A right-sized partnership for launch — mobile app + admin Studio, ready as one.

Prepared for · The Encircled team

Scope · Mobile platform + The Studio (web admin portal) — hosting, AI, releases, monitoring, on-call, OS-required maintenance

Excluded · One-time build (separate proposal). Payment processing, shipping, taxes — passthrough.

THE PHILOSOPHY

Right-sized for launch. Designed to grow only when the brand does.

You should not pay enterprise prices for an app that hasn't yet proven itself in market. You also should not have a launch tier that boxes in a values-led brand's ambition. Our recommendation balances those: a strong middle tier today, with a contractually-locked path to the highest tier the moment the brand is ready.

Predictable

A flat monthly fee for everything in the launch scope. No surprises during Year 1.

Aligned

The path to the next tier is locked in advance. You only pay more when the brand actually needs more.

Honest

If something is genuinely included, we say so. If something is passthrough or scoped separately, we say that too.

THE RECOMMENDATION

Growth tier + Studio add-on — \$4,250 / month — for Year 1.

MOBILE TIER

Growth

\$3,500 / mo

Both stores via React Native. Claude-powered AI. RevenueCat. Apple + Google sign-in. ASO quarterly. Two releases a month. Shared Slack with 4-hour response.

ADMIN PORTAL

The Studio

\$750 / mo

The internal-facing twin. Multi-way style library editor, repair queue with AI triage, capsule template library, drop scheduler, concierge inbox, analytics.

FUTURE TIER

Enterprise

from \$8,000 / mo

Native modules for AR multi-way preview. Dedicated lead engineer + PM. Region-locked data residency (EU/UK). SSO, audit logging, RLS hardening. 24/7 SLA. Studio folds in.

The internal twin of the mobile app.

Catalog and orders stay in Shopify. The Studio owns the multi-way library, the repair operation, and the capsule planning. It's not just a CMS — it's where ops happen.

MODULE	WHAT YOUR TEAM DOES WITH IT
Multi-way style library editor	Author the documented styles per piece (the Chrysalis Cardi has 8). Photo + 30-sec video per style. Multilingual.
Repair queue	Live operations — incoming requests, AI triage (DIY vs atelier), photo review, status tracking, label printing.
Capsule template library	Staff-curated trip presets — "Lisbon mild · 6d", "Tokyo winter · 10d". Customers' personal capsules build on these.
Drop & calendar scheduler	Small-collection drops, founder-narrated dispatches, region-aware push.
Concierge inbox	Atelier escalations, capsule planning, long-time customer questions — one inbox.
Translation workflow	EN-first; Claude drafts FR; editors approve per locale; one-click publish.
Loops & tier admin	Recognise long-term ownership. No discounts; access only.
Analytics dashboards	Multi-way unlock rate, repair conversion, capsule adoption, cost-per-wear distribution.

WHAT THIS LOOKS LIKE

At every stage of growth.

STAGE	MONTHLY ACTIVE USERS	MONTHLY PLATFORM FEE	PER ACTIVE USER
Pilot	1,000	\$4,250	\$4.25
Launch	5,000	\$4,250	\$0.85
Early growth	10,000	\$4,250	\$0.43
Established	25,000	\$4,250	\$0.17
Strong adoption	50,000	\$4,250	\$0.09

Combined fee covers mobile platform + Studio at every stage. AI overage above 100K calls/month billed at cost +20%. Repair-volume scale-out above 200 tickets/month scoped separately.

When Encircled is ready, Enterprise is one decision away.

Five scenarios trigger the move to Enterprise. Each is a sign the brand has succeeded.

TRIGGER	WHAT ENTERPRISE UNLOCKS
Launching AR multi-way preview	Native Swift / Kotlin modules for stable on-body AR.
Modernising wholesale & travel-retail	SSO, audit logging, role-based access, row-level security.
EU growth makes data residency contractual	EU storage and processing for GDPR.
Repair-volume scale-out at 200+ tickets / month	More sophisticated logistics integration with shipping APIs.
Major retail partner requires 24/7 / 1h SLA	Dedicated lead engineer + PM, on-call rotation.

WHAT WE LOCK IN YOUR YEAR 1 CONTRACT

The Enterprise upgrade fee is set in advance, with no penalty for moving up. Any build credit accrued during Year 1 is prorated against the Enterprise tier. You decide when you're ready.

FAIR TERMS

Three commitments to keep the relationship healthy.

30-day exit

Either side can end the agreement on 30 days' notice after the Year 1 term.

Your data, your accounts

Source code, customer data, AI logs, multi-way library all live in your cloud accounts.

AI overage cap

If AI usage spikes beyond 100,000 calls per month, anything above is billed at our cost +20%.

REPAIR-QUEUE SLA

The Studio's repair queue triages incoming tickets within 7 days of submission — protects the lifetime-guarantee promise from operational drift.

WHAT'S NOT INCLUDED

Passed through at cost or scoped separately.

- **App-store fees** — Apple's \$99/yr and Google's \$25 one-time, on your accounts.
- **Payment processing** — Shopify and Stripe fees on transactions, at standard rates.
- **Repair logistics & shipping labels** — pickup & mail-in label costs passed through at carrier rate.
- **Multi-way video shoots** — production of new style videos for legacy or new pieces is separate.
- **Phase 2 & Phase 3 build work** — AR multi-way, wholesale portal, content-scaling all scoped separately.
- **Marketing & ad spend** — entirely yours to direct.

THE OFFER

Growth + Studio · \$4,250 / month for Year 1. Pre-negotiated Enterprise upgrade folds Studio in. AI overage at cost +20%. Repair-queue 7-day SLA. 30-day exit after Year 1.

Right-sized for the launch. Right path for the success scenario. Built so the platform stays in service of the lifetime-guarantee promise — never the other way around.
