

PLATFORM INVESTMENT

The Atelier, in your customer's pocket.

A right-sized partnership for launch —
mobile app + admin Studio, ready as one.

Prepared for · The Ūnika Swim team

Scope · Mobile platform + The Studio (web admin portal) — hosting, AI, releases, monitoring, on-call, OS-required maintenance, sensitive-fit data segregation

Excluded · One-time build (separate proposal). Payment processing, shipping, taxes — passthrough.

THE PHILOSOPHY

Right-sized for launch. Designed for a custom-maker brand.

Most app platforms are built for fast-fashion. Ūnika is the opposite — made-to-order, 4–6 weeks, deeply personal. Our recommendation respects that, with a Studio that runs the custom-order workflow and a privacy posture that protects sensitive-fit work.

Predictable

A flat monthly fee for everything in the launch scope. No surprises during Year 1.

Private

Sensitive-fit data lives in a segregated store. Specialist-only access. Never trains AI.

Honest

If something is genuinely included, we say so. If something is passthrough or scoped separately, we say that too.

THE RECOMMENDATION

Growth tier + Studio add-on — \$4,250 / month — for Year 1.

MOBILE TIER

Growth

\$3,500 / mo

Both stores via React Native. Trilingual Claude AI (EN/PT/ES). RevenueCat. Apple + Google sign-in. ASO quarterly. Two releases a month. Shared Slack with 4-hour response.

ADMIN PORTAL

The Studio

\$750 / mo

Custom-order tracker (6 stages with photo upload), fabric library editor, appointment scheduler with specialist matching, concierge inbox, segregated sensitive-fit store, Sun-tier admin, analytics.

FUTURE TIER

Enterprise

from \$8,000 / mo

AR custom preview. In-store iPad mode. Wholesale B2B portal. EU/BR data residency. SSO + audit logging + RLS hardening. 24/7 SLA. Studio folds in.

The internal twin of the mobile app — and the brand's Atelier backbone.

Catalog and orders stay in Shopify. The Studio owns the custom-order workflow, the fabric library, the appointment scheduler, and — separately and audit-logged — the sensitive-fit data.

MODULE	WHAT YOUR TEAM DOES WITH IT
Custom-order tracker	6-stage workflow: design · fabric reserved · cut · sewing · finishing · ship. Photo uploads at each stage.
Fabric library editor	ECONYL® inventory with batch tracking. Stock alerts. Reorder lead times.
Appointment scheduler	Match specialists to customer fit needs (cup size, sensitive-fit accommodation).
Sensitive-fit segregated store	Mastectomy / ostomy / scar data, audit-logged, specialist-only, never used for marketing AI.
Concierge inbox	Atelier escalations, sensitive-fit conversations (privacy banner), repair / restoration.
Repair / restoration workflow	Bring an aging piece back to the boutique for restoration. Track over years.
Translation workflow	EN-first; Claude drafts PT/ES; editors approve per locale.
Analytics dashboards	Appointment-to-order conversion, custom vs pre-made mix, ECONYL® batch utilisation, repair volume.

WHAT THIS LOOKS LIKE

At every stage of growth.

STAGE	MONTHLY ACTIVE USERS	MONTHLY PLATFORM FEE	PER ACTIVE USER
Pilot	500	\$4,250	\$8.50
Launch	3,000	\$4,250	\$1.42
Early growth	8,000	\$4,250	\$0.53
Established	20,000	\$4,250	\$0.21
Strong adoption	50,000	\$4,250	\$0.09

Combined fee covers mobile platform + Studio at every stage. AI overage above 100K calls/month billed at cost +20%. Custom is a high-AOV business — small MAU, high LTV.

When Ūnika is ready, Enterprise is one decision away.

TRIGGER	WHAT ENTERPRISE UNLOCKS
Launching AR custom-design preview	Native Swift / Kotlin modules for body silhouette AR.
Adding in-store iPad mode	Hardened device management for the boutique team.
EU / BR growth makes data residency contractual	EU storage + LGPD compliance for Brazil.
Modernising wholesale & boutique B2B	SSO, audit logging, role-based access.
Major retail partner requires 24/7 / 1h SLA	Dedicated lead engineer + PM, on-call rotation.

WHAT WE LOCK IN YOUR YEAR 1 CONTRACT

The Enterprise upgrade fee is set in advance, with no penalty for moving up. Any build credit accrued during Year 1 is prorated against the Enterprise tier. You decide when you're ready.

FAIR TERMS

Three commitments — plus one privacy contract clause non-negotiable for Ûnika.

30-day exit

Either side can end on 30 days' notice after the Year 1 term.

Your data, your accounts

Source code, customer data, AI logs, sensitive-fit store all live in your cloud accounts.

AI overage cap

If AI usage spikes beyond 100,000 calls per month, anything above is billed at our cost +20%.

SENSITIVE-FIT DATA SEGREGATION (CONTRACT CLAUSE)

Mastectomy / ostomy / scar data lives in a segregated, audit-logged store. Access restricted to assigned specialists. Never used in marketing AI prompts. Customer can revoke at any time. Built into the architecture from day one.

WHAT'S NOT INCLUDED

Passed through at cost or scoped separately.

- **App-store fees** — Apple's \$99/yr and Google's \$25 one-time, on your accounts.
- **Payment processing** — Shopify and Stripe fees on transactions, at standard rates.
- **ECONYL® fabric inventory** — supply chain costs are yours.
- **Custom-order shipping** — pass-through at carrier rate.
- **Phase 2 & Phase 3 build work** — AR custom preview, wholesale portal, in-store iPad all scoped separately.
- **Yorkville boutique POS integration** — scoped if/when needed.
- **Marketing & ad spend** — entirely yours to direct.

THE OFFER

Growth + Studio · \$4,250 / month for Year 1. Pre-negotiated Enterprise upgrade folds Studio in. Sensitive-fit data segregation as contract clause. AI overage at cost +20%. 30-day exit after Year 1.

Right-sized for the launch. Right path for the success scenario. Built so the platform stays in service of the Atelier — and the customers who trust it most.
