

PLATFORM INVESTMENT

An app that finds the fit.

A right-sized partnership for launch —
mobile app + admin Studio, ready as one.

Prepared for · The Free Label team

Scope · Mobile platform + The Studio (web admin portal) — hosting, AI, releases, monitoring, on-call, OS-required maintenance

Excluded · One-time build (separate proposal). Payment processing, shipping, taxes — passthrough.

THE PHILOSOPHY

Right-sized for launch. Designed for an independent brand.

You should not pay enterprise prices for an app that hasn't yet proven itself in market. You also should not have a launch tier that boxes in the kind of AI fit work that makes Free Label different. Our recommendation balances those.

Predictable

A flat monthly fee for everything in the launch scope. No surprises during Year 1.

Inclusive

The app supports A–L cup, 2X–5X by default. Trans/nonbinary fit guidance is in scope.

Honest

If something is genuinely included, we say so. If something is passthrough or scoped separately, we say that too.

THE RECOMMENDATION

Growth tier + Studio add-on — \$4,250 / month — for Year 1.

MOBILE TIER

Growth

\$3,500 / mo

Both stores via React Native. Claude-powered AI. RevenueCat. Apple + Google sign-in. ASO quarterly. Two releases a month. Shared Slack with 4-hour response.

ADMIN PORTAL

The Studio

\$750 / mo

Fit-Finder rules engine, Drops & production tracker, swap workflow, Comfort Lab content admin, concierge inbox, Free-tier admin, analytics.

FUTURE TIER

Enterprise

from \$8,000 / mo

AR fit visualisation. Photo-based fit check at scale. Wholesale B2B portal. EU GDPR residency. SSO + audit logging + RLS hardening. 24/7 SLA. Studio folds in.

The internal twin of the mobile app.

Catalog and orders stay in Shopify. The Studio owns the Fit-Finder rules, the Drops & production schedule, the swap workflow, and the Comfort Lab content.

MODULE	WHAT YOUR TEAM DOES WITH IT
Fit-Finder rules engine	Per-style algorithm: how cup feel + band feel + body comfort + brand anchor map to a recommended size.
Drops & production tracker	Schedule drops, track batch counts, manage waitlists, no fake urgency.
Swap workflow	Free size-swap operations: label print, in-transit tracking, second-size ship, swap-history per customer.
Pieces & passport editor	Author fabric, fit notes, OEKO-TEX certifications, cup-size guidance per piece.
Comfort Lab content admin	Care videos, fit tutorials, plus-cup confidence content, trans/nonbinary fit guidance.
Concierge inbox	Lab chat escalations · size-swap follow-ups · larger-cup fitting questions · waitlist asks.
Translation workflow	EN-first; Claude drafts FR; editors approve per locale.
Analytics dashboards	Fit-Finder conversion, return rate by style, drop sell-through, swap-to-keep ratio.

WHAT THIS LOOKS LIKE

At every stage of growth.

STAGE	MONTHLY ACTIVE USERS	MONTHLY PLATFORM FEE	PER ACTIVE USER
Pilot	1,000	\$4,250	\$4.25
Launch	5,000	\$4,250	\$0.85
Early growth	10,000	\$4,250	\$0.43
Established	25,000	\$4,250	\$0.17
Strong adoption	50,000	\$4,250	\$0.09

Combined fee covers mobile platform + Studio at every stage. AI overage above 100K calls/month billed at cost +20%.

When Free Label is ready, Enterprise is one decision away.

TRIGGER	WHAT ENTERPRISE UNLOCKS
Launching AR fit visualisation	Native Swift / Kotlin modules for body silhouette AR.
Modernising wholesale & boutique B2B	SSO, audit logging, role-based access, row-level security.
EU growth makes data residency contractual	EU storage and processing for GDPR.
Adding photo-based fit check at scale	Body-photo data adjacency requires Enterprise audit posture.
Major retail partner requires 24/7 / 1h SLA	Dedicated lead engineer + PM, on-call rotation.

WHAT WE LOCK IN YOUR YEAR 1 CONTRACT

The Enterprise upgrade fee is set in advance, with no penalty for moving up. Any build credit accrued during Year 1 is prorated against the Enterprise tier. You decide when you're ready.

FAIR TERMS

Three commitments to keep the relationship healthy.

30-day exit

Either side can end on 30 days' notice after the Year 1 term.

Your data, your accounts

Source code, customer data, AI logs, Fit-Finder rules engine all live in your cloud accounts.

AI overage cap

If AI usage spikes beyond 100,000 calls per month, anything above is billed at our cost +20%.

BRAND-SIDE APPROVAL

Every fit, care, or product claim — and every piece of inclusivity content (plus-cup, trans/nonbinary) — reviewed and approved by your editorial team. AI generates; humans approve. Always.

WHAT'S NOT INCLUDED

Passed through at cost or scoped separately.

- **App-store fees** — Apple's \$99/yr and Google's \$25 one-time, on your accounts.
- **Payment processing** — Shopify and Stripe fees on transactions, at standard rates.
- **Free size-swap shipping** — pass-through at carrier rate.
- **Comfort Lab video production** — care videos, founder dispatches, instructor content.
- **Phase 2 & Phase 3 build work** — AR fit, wholesale portal, content scaling all scoped separately.
- **OEKO-TEX certification fees** — yours.
- **Marketing & ad spend** — entirely yours to direct.

THE OFFER

Growth + Studio · \$4,250 / month for Year 1. Pre-negotiated Enterprise upgrade folds Studio in. AI overage at cost +20%. Brand-side approval on every fit / inclusivity / care claim. 30-day exit after Year 1.

Right-sized for the launch. Right path for the success scenario. Built so the platform stays in service of the fit — never the other way around.
