

PLATFORM INVESTMENT

An app that grows the practice.

A right-sized partnership for launch —
mobile app + admin Studio, ready as one.

Prepared for · The Moon Juice team

Scope · Mobile platform + The Studio (web admin portal) — hosting, AI with compliance guardrails, releases, monitoring, on-call, OS-required maintenance

Excluded · One-time build (separate). Payment processing, shipping, taxes, Rx interaction database licensing — passthrough at cost.

THE PHILOSOPHY

Right-sized for launch. Designed for a regulated category.

Wellness apps grow until the FDA or FTC notices. We've built compliance into the architecture from day one — so the brand grows safely past Sephora into Whole Foods, Target, EU. Our recommendation balances a strong middle tier today with a contractually-locked path to Enterprise the moment scale requires it.

Predictable

A flat monthly fee for everything in the launch scope. No surprises during Year 1.

Compliant

Every customer-facing claim cited and editor-approved. AI never invents science.

Honest

If something is genuinely included, we say so. If something is passthrough or scoped separately, we say that too.

THE RECOMMENDATION

Growth tier + Studio add-on — \$4,250 / month — for Year 1.

MOBILE TIER

Growth

\$3,500 / mo

Both stores via React Native. Claude-powered AI with strict compliance guardrails. RevenueCat. Apple + Google sign-in. ASO quarterly. Two releases a month. Shared Slack with 4-hour response.

ADMIN PORTAL

The Studio

\$750 / mo

Apothecary editor with citation manager, adaptogen library, compliance review queue, ritual library, refill ops dashboard, concierge inbox, analytics.

FUTURE TIER

Enterprise

from \$8,000 / mo

Practitioner B2B portal. Health-data integration (Apple Health, cycle data). EU GDPR data residency. Native AR. SSO + audit logging + RLS hardening. 24/7 SLA. Studio folds in.

The internal twin of the mobile app — and the brand's compliance backbone.

Catalog and orders stay in Shopify. The Studio owns the Apothecary, the citation library, the compliance review queue, the refill ops dashboard. The AI proposes; humans approve.

MODULE	WHAT YOUR TEAM DOES WITH IT
Apothecary editor + citation manager	Author per-product passports with adaptogen sourcing, dosing, evidence links. Every claim citation-backed.
Adaptogen library	Per-adaptogen reference with peer-reviewed citations and contraindications.
Compliance review queue	Catches FDA / FTC sensitive language before publish. AI pre-screens; you approve.
Ritual library	Morning / midday / evening cards with audio narration. Multilingual.
Goal-stack rules engine	Staff-curated rules, AI-augmented. Editors define what "calm + brain" recommends.
Refill ops dashboard	At-risk subscriptions, smart refill predictions, bottle returns + credit.
Concierge inbox	Apothecary chat escalations, Rx-interaction queries, refill questions, practitioner enquiries.
Analytics dashboards	Ritual completion, stack adoption, refill churn, compliance flags caught pre-publish.

WHAT THIS LOOKS LIKE

At every stage of growth.

STAGE	MONTHLY ACTIVE USERS	MONTHLY PLATFORM FEE	PER ACTIVE USER
Pilot	2,000	\$4,250	\$2.13
Launch	10,000	\$4,250	\$0.43
Early growth	25,000	\$4,250	\$0.17
Established	50,000	\$4,250	\$0.09
Strong adoption	100,000	\$4,250	\$0.04

Combined fee covers mobile platform + Studio at every stage. AI overage above 100K calls/month billed at cost +20%. Rx interaction database license passthrough at cost.

When Moon Juice is ready, Enterprise is one decision away.

TRIGGER	WHAT ENTERPRISE UNLOCKS
Launching practitioner B2B portal	SSO, audit logging, role-based access — required for naturopath / coach client tracking.
Adding health-data integration (Apple Health, cycle data)	HIPAA-adjacent / CCPA-CMIA audit logging.
EU expansion makes data residency contractual	EU storage and processing for GDPR special-category data.
Launching AR ritual visualization	Native Swift / Kotlin modules for stable on-counter AR.
Major retail partner requires 24/7 / 1h SLA	Dedicated lead engineer + PM, on-call rotation.

WHAT WE LOCK IN YOUR YEAR 1 CONTRACT

The Enterprise upgrade fee is set in advance, with no penalty for moving up. Any build credit accrued during Year 1 is prorated against the Enterprise tier. You decide when you're ready.

FAIR TERMS

Three commitments to keep the relationship healthy.

30-day exit

Either side can end on 30 days' notice after the Year 1 term.

Your data, your accounts

Source code, customer data, AI logs, the Apothecary citation library all live in your cloud accounts.

AI overage cap

If AI usage spikes beyond 100,000 calls per month, anything above is billed at our cost +20%.

BRAND-SIDE LEGAL REVIEW

Every customer-facing adaptogen, dosing, or interaction claim reviewed and approved by your legal team before publish. AI generates; humans approve. Always. We never let the platform put your FDA / FTC posture at risk.

RX INTERACTION DATABASE

We license a commercial interaction database (or use RxNorm where viable). License fee passed through at cost. We don't mark up regulatory infrastructure.

WHAT'S NOT INCLUDED

Passed through at cost or scoped separately.

- **App-store fees** — Apple's \$99/yr and Google's \$25 one-time, on your accounts.
- **Payment processing** — Shopify and Stripe fees on transactions, at standard rates.
- **Rx interaction database license** — pass-through at cost.
- **Ritual audio production** — Amanda + practitioner voice recordings are yours to produce.
- **Editorial / journal production** — long-form content is yours.
- **Phase 2 & Phase 3 build work** — practitioner portal, AR, content scaling all scoped separately.
- **Marketing & ad spend** — entirely yours to direct.

THE OFFER

Growth + Studio · \$4,250 / month for Year 1. Pre-negotiated Enterprise upgrade folds Studio in. Brand-side legal review on every customer-facing claim. AI overage at cost +20%. Rx interaction database at cost. 30-day exit after Year 1.

Right-sized for the launch. Right path for the success scenario. Built so the platform stays in service of the practice — and inside the lines of the regulators.
