

PLATFORM INVESTMENT

An app that honours the craft.

A right-sized partnership for launch —
mobile app + admin Studio, ready as one.

Prepared for · The Pineda Covalín team

Scope · Mobile platform + El Estudio (web admin portal) — hosting, AI, releases, monitoring, on-call, OS-required maintenance

Excluded · One-time build (separate proposal). Payment processing, shipping, taxes — passthrough.

THE PHILOSOPHY

Right-sized for launch. Designed to grow only when the brand does.

You should not pay enterprise prices for an app that hasn't yet proven itself in market. You also should not have a launch tier that boxes in a luxury brand's ambition. Our recommendation balances those: a strong middle tier today, with a contractually-locked path to the highest tier the moment the brand is ready.

Predictable

A flat monthly fee for everything in the launch scope. No per-MAU surprises during Year 1.

Aligned

The path to the next tier is locked in advance. You only pay more when the brand actually needs more.

Honest

If something is genuinely included, we say so. If something is passthrough or scoped separately, we say that too.

THE RECOMMENDATION

Growth tier + Studio add-on — \$4,250 / month — for Year 1.

MOBILE TIER

Growth

\$3,500 / mo

Both stores via React Native. Claude-powered AI. RevenueCat. Apple + Google sign-in. ASO quarterly. Two releases a month. Shared Slack with 4-hour response.

ADMIN PORTAL

El Estudio

\$750 / mo

The internal-facing twin. Atelier passport editor, translation workflow, cultural calendar, concierge inbox, VIP admin, authenticity queue, analytics. Same brand palette, built for your team.

FUTURE TIER

Enterprise

from \$8,000 / mo

Native modules for AR. Dedicated lead engineer + PM. Region-locked data residency. SSO, audit logging, RLS hardening. 24/7 SLA. Studio folds in.

The internal-facing twin of the mobile app.

Catalog and orders stay in Shopify / VTEX. El Estudio owns everything new the app introduces — the cultural content, the translations, the calendar, the customer relationships.

MODULE	WHAT YOUR TEAM DOES WITH IT
Atelier passport editor	Author motif story, technique, artist bio, audio guide. Multilingual fields with curator review.
Translation workflow	Spanish-first; Claude drafts EN, FR, IT, JP, ZH; one-click publish per locale.
Cultural calendar & drop scheduler	Schedule drops, push copy, hero imagery, region targeting. Día de Muertos, monarch migration, Frida birthday.
Concierge inbox	Escalations from El Docente, B2B requests, VIP messages — all in one inbox.
VIP & tier admin	Comp invitations, signed-piece allocation, Mariposa-tier overrides, studio-visit booking.
Authenticity & moderation queue	Review NFC tags, flag suspected counterfeits, moderate any user-generated content.
Analytics dashboards	Tourist retention, gift uptake, recipient activation, cross-language reach. Real numbers, not vanity.

WHY THIS TIER

Growth gives the brand everything Phase 1 needs — and nothing it doesn't.

WHAT'S INCLUDED ON GROWTH	WHAT IT DELIVERS FOR PINEDA COVALÍN
Both iOS & Android via React Native + Expo	One codebase serves your global mixed-OS customer base; OTA updates ship cultural-calendar drops without store-review delays.
Claude AI (Sonnet + Haiku)	Powers the cultural docent in six languages, the gift recommender, multilingual translation, and visual search — all of Phase 1 AI.
RevenueCat (StoreKit + Google Play Billing)	Future-proofs digital certificates and any VIP membership tiers without a re-architecture.
Sign in with Apple + Google	Tourists install and start using the app within 30 seconds — no forms.
Quarterly App Store Optimisation	Tourist discovery — "Mexico souvenir," "silk scarves Mexico City," "Frida Kahlo gift" all matter for international install rates.
Two releases per month	Matches your cultural calendar — Día de Muertos, monarch migration, Frida birthday all need timely release support.
Shared Slack channel · 4-hour response	Right level for a luxury brand at launch. The team is a Slack message away during business hours.

When Pineda Covalín is ready, Enterprise is one decision away.

Four scenarios trigger the move to Enterprise. Each is a sign the brand has succeeded — and that the platform should match.

TRIGGER	WHAT ENTERPRISE UNLOCKS
You're ready to launch AR scarf try-on at flagship fidelity	Native Swift / Kotlin modules for cloth-drape simulation that React Native cannot match.
You're modernising corporate & diplomatic gifting	SSO, audit logging, role-based access, and database row-level security — required for serious B2B.
EU or APAC growth makes data residency a contractual matter	Region-locked storage and processing to meet GDPR and APAC localisation rules.
A museum or hotel partner requires 24/7 / 1-hour SLA	Dedicated lead engineer + PM, on-call rotation, source-code escrow.

WHAT WE LOCK IN YOUR YEAR 1 CONTRACT

The Enterprise upgrade fee is set in advance, with no penalty for moving up. Any build credit accrued during Year 1 is prorated against the Enterprise tier. You decide when you're ready.

FAIR TERMS

Three commitments to keep the relationship healthy.

30-day exit

Either side can end the agreement on 30 days' notice after the Year 1 term. Continued partnership is renewed by mutual fit.

Your data, your accounts

Source code, customer data, AI logs all live in your cloud accounts. We hold no leverage except being useful.

AI overage cap

If AI usage spikes beyond 100,000 calls per month — say, during a museum exhibit — anything above is billed at our cost +20%. Never a margin grab.

WHAT'S NOT INCLUDED

Passed through at cost or scoped separately.

- **App-store fees** — Apple's \$99/yr developer programme and Google's one-time \$25 fee, on your accounts.
- **Payment processing** — Shopify or VTEX and Stripe fees on transactions, at standard rates.
- **Shipping & logistics APIs** — for buy-in-city collect-at-airport, repair pickup, gift fulfilment. Pass-through at cost.
- **Phase 2 & Phase 3 build work** — AR try-on, corporate portal, editorial engine all scoped as separate engagements with their own fixed fees.
- **Cultural content review** — every customer-facing string of cultural content reviewed by a curator the brand chooses. We generate; you approve.
- **Marketing & ad spend** — entirely yours to direct.

THE OFFER

Growth + Studio · \$4,250 / month for Year 1. Pre-negotiated Enterprise upgrade folds Studio in. AI overage at cost +20%. 30-day exit after Year 1.

Right-sized for the launch. Right path for the success scenario. Built so the platform stays in service of the craft — never the other way around.
