

## PLATFORM INVESTMENT

# An app that moves with you.

A right-sized partnership for launch — mobile app + admin Studio, ready as one.

**Prepared for** · The Titika Active team

**Scope** · Mobile platform + The Studio (web admin portal) — hosting, AI, releases, monitoring, on-call, OS-required maintenance

**Excluded** · One-time build (separate proposal). Payment processing, shipping, taxes — passthrough.

## THE PHILOSOPHY

# Right-sized for launch. Designed to grow only when the brand does.

You should not pay enterprise prices for an app that hasn't yet proven itself in market. You also should not have a launch tier that boxes in a multi-region brand's ambition. Our recommendation balances those: a strong middle tier today, with a contractually-locked path to the highest tier the moment the brand is ready.

### Predictable

A flat monthly fee for everything in the launch scope. No per-MAU surprises during Year 1.

### Aligned

The path to the next tier is locked in advance. You only pay more when the brand actually needs more.

### Honest

If something is genuinely included, we say so. If something is passthrough or scoped separately, we say that too.

## THE RECOMMENDATION

# Growth tier + Studio add-on — \$4,250 / month — for Year 1.

#### MOBILE TIER

## Growth

**\$3,500 / mo**

Both stores via React Native. Claude-powered AI. RevenueCat. Apple + Google sign-in. ASO quarterly. Two releases a month. Shared Slack with 4-hour response.

#### ADMIN PORTAL

## The Studio

**\$750 / mo**

The internal-facing twin. Closet & passport editor, Practice library admin, drop scheduler, ambassador program, Tribe moderation, concierge inbox, analytics.

#### FUTURE TIER

## Enterprise

**from \$8,000 / mo**

Native modules for AR fit. Dedicated lead engineer + PM. Region-locked data residency. SSO, audit logging, RLS hardening. 24/7 SLA. Studio folds in.

# The internal-facing twin of the mobile app.

Catalog and orders stay in Shopify. The Studio owns everything new the app introduces — closet content, the Practice library, the Tribe community, the ambassador program.

| <b>Tribe moderation</b>              | AI auto-screens "fit looks" and meetup posts; humans approve before publish.                                    |
| <b>Concierge inbox</b>               | Escalations from the Fit Atelier, Asia Miles questions, ambassador DMs — one inbox.                             |

# When Titika is ready, Enterprise is one decision away.

Five scenarios trigger the move to Enterprise. Each is a sign the brand has succeeded — and that the platform should match.
